GRASS GIS Addons Install Instruction

This instruction is complementary to the BasinMaker Full installation, which describes details of GRASS GIS addons installation in step 6 (see details of the BasinMaker Full installation here: https://basinmaker.readthedocs.io/en/latest/installation.html#arcgis-pro-with-anaconda-windows-only).

In this instruction, GRASS GIS 7.8.5 is used, which can be downloaded here: <u>https://qgis.org/en/site/forusers/download.html</u>

After the installation of GRASS GIS, open GRASS GIS

Navigate to Start menu -> GRASS GIS 7.8.5

When you see the startup window, click on Browse

Update addons. If you were using older version of GRASS GIS (older than 7.8.5), we suggest upgrading to version 7.8.5. After upgrading the GRASS GIS, you need to update addons.

Navigate to Settings -> Addon extensions -> Manage installed extensions

Select the addons you want to update, and click Reinstall.
